

Student Technology Use Survey

This is a survey about your use of technology (computers, CD-ROMs, laserdiscs, VCRs, video cameras, etc.) and about what you'd like to learn in school in connection with technology. Please answer the questions as honestly as you can. Keep in mind that there are no "right" answers; whatever your experience is perfectly ok. The information you give will help improve the school. Thank you for your time.

Please *do not mark* on this survey; use the included Scantron form.
